- API Integration, Basic SEO, Cross-Browser Compatibility, Version Control

Professional Experience

Frontend Developer

[Fresher] — Present

- Developed and maintained responsive websites using HTML, CSS, and JavaScript, ensuring compatibility across different browsers and devices.
 - Built interactive, single-page applications using React and Redux, optimizing components for better performance and reusability.
 - Collaborated with designers and backend developers to implement and improve UI/UX design, achieving high levels of user satisfaction.
 - Integrated RESTful APIs to dynamically update application data, improving website functionality and data accessibility.
 - Enhanced website performance by implementing lazy loading, code-splitting, and image optimization techniques, achieving a [percentage]% improvement in load times.
 - Used Git for version control, managing code changes and collaborating effectively with team members.
-

Education

Bachelor of Technology in Computer Science

[RGPV/GLOBAL NATURE CARE GROUP SANGATHAN INSTITUTION] —

[Jabalpur, MP]

[2026]

Relevant Coursework:

Web Development, Human-Computer Interaction, Software Engineering, Database Management, Data Structures & Algorithms

Certifications

- **JavaScript & Frontend Libraries** – [CISCO]
 - **Responsive Web Design** –
 - **Frontend Development with React** –
-

Projects

1. Responsive Portfolio Website

- Built a personal portfolio website using HTML, CSS, and JavaScript to showcase projects and skills. Made the site fully responsive and optimized for performance.

2. E-Commerce Storefront

- Developed a frontend for an e-commerce site using React and Redux, with features like product listings, a shopping cart, and order history.
- Implemented responsive design to ensure usability on mobile devices.

3. Task Management App

- Created a task management application with React and local storage. Added features such as task creation, editing, and deletion, as well as data persistence.
